

AAC TENACIOUS VB

CPSR

AAC Tenacious VB offers CPSR growers improved yield results and unparalleled disease and insect resistance. AAC Tenacious VB offers MR or better disease ratings for all major diseases, including the first full R rating for FHB, and provides the added bonus of Midge Tolerance. The key to a good offence is a good defence. The best defence is AAC Tenacious VB.

KEY BENEFITS

- New plateau in disease resistance
- Good grade protection

VARIETY FEATURES

- Full R for FHB. Low FHB and DON
- Full R for Loose Smut, Stripe Rust and Leaf Rust
- MR for Bunt and Stem Rust
- Strongest sprout rating available to help maintain high falling numbers
- 2 days earlier maturing than check
- Good Standability
- Midge Tolerant
