

## GROW FUEL IN YOUR FIELD

AAC Innova CWSP has shown class leading yields, with agronomic features including short, strong straw to ensure that big bushels do not require a big time commitment at harvest. With soft white wheat parentage, low protein, and high starch content, AAC Innova is the coveted variety of choice for ethanol production across the prairies.

### AAC INNOVA YIELD & PROTEIN

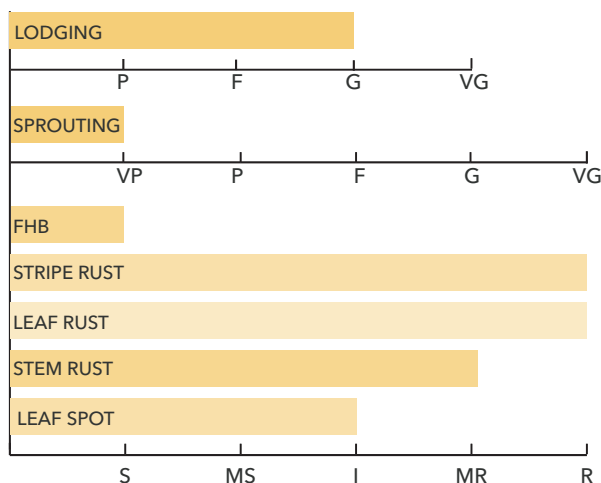

### FEATURES

- Very high yield potential
- G for standability
- Excellent ethanol variety
- Easy harvestability
- Early maturity for the class
- Awned

BREEDER: DR HARPINDER RANDHAWA, AAFC LETHBRIDGE  
 PARENTAGE: AC ANDREW/N9148
